The 1980 Thunderbird Silver Anniversary Special Edition

To mark the 25th anniversary of the Thunderbird, Ford offered a commemorative "Silver Anniversary Edition" for the 1980 model year. Offered as a cosmetic option package as the top-level trim, the Silver Anniversary Edition consisted of an exclusive color scheme (Anniversary Glow Silver), with silver/gray velour (or leather). Offered only with the 4.9 L V8 and AOD (Automatic Overdrive Transmission), the Silver Anniversary Edition included every feature offered on the standard Thunderbird, but added a "frenched" rear window, rosewood interior trim, commemorative badging, and an integrated garage door opener.

Low Mileage Original Car

The 1980 Silver Anniversary Thunderbird

The Proudest Bird of All

The Silver Anniversary Thunderbird grows naturally out of twenty-five years of triumphant Thunderbirds.

In honor of that occasion, we have produced the Silver Anniversary Thunderbird. It is, in a word, a knockout.

Both the inside and the outside are all silver. A silver bird representing the ultimate in Thunderbird's sophisticated automotive design.

Many Thunderbird options are standard. AM-FM stereo, air conditioning, power windows, power brakes, power seats, white sidewalls, power antenna and speed control.

And many individualized options are standard on the Silver Anniversary Thunderbird: owner's nameplate, digital speedometer, keyless entry system, garage door opener.

Like all 1980 Thunderbirds, it was conceived and produced in a new contemporary size. This size and the new automatic overdrive transmission which is standard on this car, optional on other Thunderbirds, result in excellent ratings of (17) EPA est. MPG—29 est. hwy. MPG.*

If you're looking for a car that expresses you, consider joining the many who find Thunderbird an expression of their individuality. The Silver Anniversary Thunderbird.

Road Test magazine awards Thunderbird "best domestic car for 1980."

*Compare this to other cars. Your mileage may differ depending on speed, weather and trip length. Actual highway mileage will be lower than estimates. California ratings lower.
